INAUGURAL ADDRESS

Madam explained about the mighty power of strategy winning in business and life .everyone has a set of choices that enables a company to deliver superior value to its customers on a reliable and sustainable basis. The hallmark of a winning business strategy is that the choices a company makes create sustainable competitive advantage that is manifested in better performance, quality and consistent value for customers and better value creation for the firm and its key stakeholders. A winning business strategy is a set of choices that enables a company to deliver superior value to its customers on a reliable and sustainable basis. The hallmark of a winning business strategy is that the choices a company makes create sustainable competitive advantage that is manifested in better performance, quality and consistent value for customers and better value creation for the firm and its key stakeholders. A winning business strategy delivers superior value to customers and superior returns to the company. Winning strategic choices create sustainable advantage for both customers and for the firm...its ownership, management and employees. Businesses that perform make choices that find the right balance, the right combination, the “sweet spot” that creates a win-win for the customer and for the company. Finding the combination of choices that

deliver the win-win “sweet spot” can be challenging. It requires experimentation to hit the target and continuous improvement to stay on target. After choosing to win with consumers who matter most, in a way that creates sustainable advantage for your product and/or service, and your company, choose how you will measure winning .In my experience, most companies make the wrong choice. For a lot of reasons, they choose financial accounting measures of business performance. I prefer operating performance measures. net realization or revenues after all discounts, promotions, and rebates gross and operating margins based on a clear and comprehensive understanding of operating costs free cash flow and cash productivity, the cash it really takes to operate the business, and the cash the operating business really returns too many businesses do not understand their real costs, their primary sources and uses of cash, and which revenue sources and customers generate real operating profit. 143 students benefitted and participated.

THE MIGHTY POWER OF STRATEGY WINNING IN BUSINESS AND LIFE

REPORT ON 27-01-2020

SPECIAL LECTURE : Entrepreneurship Development

The Association of Business Administration Inauguration function (women) for the academic year 2019-2020 was held on 27th January 2020 in the Almanhal in our college. The programme was started with Qirath by Ms. Ameera Fathima of III BBA 'E', to invoke the blessings of the Almighty. Dr. S. MOHAMED MOHIDEEN Member Incharge of the Department welcomed the gathering Dr. A.J.HAJA MOHIDEEN introduced the Chief Guest Shri.C.RAVICHANDRAEN ,Manager cum Deputy Director, Department of Industry and Commerce, District Trichy. Sir delivered a Special Lecture on Entrepreneurship Development at 3.30 pm. Sir explained scalable startup attempts to grow quickly and become a profitable company. While less common than small businesses, these startups have a tendency to gain a lot of attention when they become successful. They typically start in an attic, a garage, a dorm room, or study room on campus, as an idea that's being tossed around. These small scale concepts end up gaining investors which allow them to grow and scale up. This is what most folks think of when they hear "startup" or "entrepreneur" and get visions of Silicon Valley tech companies. Human created issues sometimes call for innovative community-based solutions. Social entrepreneurs seek to create a positive change with their actions. By launching an initiative or non-profit organization, whose primary purpose is to help people and not make money, these individuals strive to be the change they want to see in the world. Some topics these organizations focus on include racial justice, environmental conservation, or serving underserved communities in one way or another. Ms. Christine Maria Drewitt , Assistant Professor and Vice President of BBA (Women) Proposed a vote of thanks. 133 students participated.

REPORT ON 03.03.2020

GUEST LECTURE PROGRAMME: 5

The Valediction Program was organized on the topic “*Challenges faced by women*” for the students on **03rd March 2020 (Tuesday) at 4.50 pm in Al Manhal Hall A/C**

The top photograph shows a man in a blue shirt speaking at a podium labeled 'JMC'. Behind him, a panel of six people (three men and three women) are seated on a stage. A banner in the background reads 'JAMAL MOHAMED COLLEGE (Autonomous)' with accreditation details and 'DEPARTMENT OF BUSINESS ADMINISTRATION'.

The bottom photograph shows a group of people on a stage. A woman in a red sari is presenting a certificate to a man in a white shirt. Other people are standing around them, some holding certificates. A banner in the background is partially visible.

The Meritorious students were awarded with certificates by our beloved Treasurer sir.

The Association of Business Administration Inauguration function (women) for the academic year 2019-2020 was held on 03.03 2020 in the ALMANHAL A/C in our college. The group discussion was started with Qirath by Ms. Ameera Fathima of III BBA 'E', to invoke the blessings of the Almighty. Dr. S. MOHAMED MOHIDEEN Member Incharge of the Department welcomed the gathering. Dr. A. Mohamed Ibrahim Presided over the function Dr. A. J. Haja Mohideen introduced, the chief guest.

Dr. S. Tamilselvi, Head, Department of Business Administration, Cauvery College for women, Trichy the Chief Guest Madam explained about what are the challenges faced by women. When it comes to gender inequality, many parents wish for a boy rather than a girl since, in their so-called "mentality," boys will carry on with their generation. Even though it is against the law, they continue to try to determine a baby's gender. They will carry the pregnancy to term if they find a male, but they will abort if they find a girl. I don't know why they don't see that they cannot pass on a generation without a girl. An infant can only be conceived by a woman. A generation cannot pass on without women. Men and women have equal responsibility for

childbirth, yet neither can fully comprehend the suffering a woman goes through during the nine months of pregnancy. Women are still facing sexual abuse and harassment, according to the most recent government report on crimes in the country, India logged 31,677 cases of rape in 2021, or 86 cases per day on average, while there were approximately 49 incidences of violence against women reported every single hour. Many of the women experience abuse from family members or relatives. In Ludhiana 28-year-old woman was raped by her father-in-law. He spiked her drink and raped her. If a girl comes from a poor household with a brother, her parents will spend their money on his education rather than hers. Their alleged philosophy holds that teaching a girl and wasting money on her are both unnecessary because she will marry into someone else's wealth. She is really an unwanted obligation. It hurts every woman when your parents tell you that you are someone else's responsibility. She feels pain and is internally torn apart. Thanks to the government of India, they are providing free education to children of poor families. And at least due to the free education policy parents are allowing their girl child to study. Otherwise, they wouldn't have spent money on girl education. Thanks to the Indian government for offering free education to children from low-income families. Parents are at least enabling their girl child to study thanks to the free education policy. Otherwise, they wouldn't have paid for the education of girls. To combat these problems faced by Indian women, everyone must work together. Every person must work to ensure that it is safe for women to be there, including the government. Criminals who harm women must face stricter penalties under the law. In order for everyone to take them seriously, they must also be well implemented. Education also needs to be emphasized strongly. For a better future, it must become mandatory for all girls and women to have an education. To defend and safeguard our women in India, we must work together. It will benefit our nation's growth and improve the world. As a result, each of us needs to be prepared to treat women equally. We must support them at every stage and go beyond that by giving them the freedom to choose for themselves. After that, these problems can be resolved, ensuring that women would no longer experience prejudice based on their gender. 143 students participated.

CHALLENGES FACED BY WOMEN

LEARNING OUTCOMES

Upon successful completion, students will have the knowledge and skills to:

The outcome of this programme is:

- Students can combat these problems faced by Indian women everyone must work together.
- Students can get better future education also needs to be emphasised strongly.
- No longer experience prejudice based on the gender.
