JAMAL MOHAMED COLLEGE (Autonomous)
Tiruchirappalli – 620 020

Research Vision

In the Teaching-Learning environment, the component of Research is playing a vital role. The innovation, Research and Development contribute a lot to the students and there by the society. Our College encourages the faculty members to engage themselves in potential research with social relevance by creating research ambience, providing infrastructure and financial support by the Management, UGC and other Govt. and Private Funding Agencies.

Objectives:

~ To promote interdisciplinary and multidisciplinary research in languages, arts, humanities, commerce, management, pure sciences and applied sciences.

~ To promote research with new innovations, beneficial to the society coupled with human values.

~ To encourage collaborative research with peer institutions of high repute, both nationally and internationally.

~ To encourage faculty members to publish research articles in high quality journals and to present the research articles in standard International Conferences in India and abroad, by providing financial support.

~ To motivate the faculty and students to get research grants from National and International Funding Agencies to carry out research.

~ To encourage the faculty, by presenting Senior Researcher Award, Junior Researcher Award, and Woman Researcher Award every academic year.

~ To encourage all the Departments to organize National / International Level Conferences / Workshops and to publish the peer reviewed conference papers in quality International Journals.

Consultancy Vision

The expertise of the faculty members and the infrastructure in the Institution can be utilized, not only to the students inside but also to the society outside. Jamal Mohamed College is very much concerned for the people around and hence encouraging the students and faculty with their know-how move, beyond the academics to serve the society by providing need based consultancy services.

Objectives :

- to encourage all the Departments to identify the need based services in and around the city on their domain.

- to provide consultancy services to the individuals, commercials, Non Governmental Organizations and Self Help Groups in their business / projects.

- to conduct need based training programs to the Government Officials, Teachers on a particular domain

- to generate funds out of consultancy services by charging affordable cost or zero cost.
