good manners at work for elders. You should respect your co-workers. Also you should try to complete yours on time. Furthermore you should be punctual in the office. Do not gossip while working & do not distract others.

Moreover you should not interfere in other's work. Consider your junior employees & help them if they have any problem. At last do not fall into corruption & do your work with honesty & intelligence.

In order to live in a society one should have good manners. This maintains a peaceful environment & people will like you as a human being.

We can enlist good manners by reading books & learning from it. Moreover you can also join personality development classes. They teach all the good manners & make you a better person.
