Outcome

- Students learned features of MATLAB as a programming tool. They are fully familiar to all the features of MATLAB software and easily handle the software.
- New teaching model which include theory & practical running simultaneously is introduced to our students. This method is very effective and helped to develop programming skills and technique to solve mathematical problems.
- Students learned graphic features of MATLAB and they are able to use this feature effectively in the various applications.
- Students are able to use MATLAB as a simulation tool.

REPORT OF THE EVENT

WITH RESPECT TO WORLD COTTON DAY ON 7TH OCTOBER, WE CELEBRATED COTTON DAY ON 27.10.2021. THE PROGRAM STARTED WITH A SPECIAL LECTURE BY MS.A.YAMINI, FROM JD INSTITUTE OF FASHION TECHNOLOGY BANGALORE. THE TOPIC BASED ON "PASSION FOR COTTON - THE VERSATILITY OF COTTON". THE GUEST GAVE A WONDERFUL EXPLANATION ON THE COTTON AND ITS VERSATILITY. THE STUDENTS OF OUR DEPARTMENT EXHIBITED THE VALUES OF COTTON BY USING THE BOARDS AND DISTRIBUTED COTTON MASKS AND COTTON CANDY IN THE COLLEGE. THE STUDENTS CREATED AN ILLUSTRATION TO CREATE AN AWARENESS OF COVID 19 ALONG WITH THE COTTON MATERIALS. DR.MARIO JAGAN, MOTIVATIONAL SPEAKER GAVE AN SPEECH ON THE EFFORTS TAKEN BY THE STUDENTS OF FASHION TECHNOLOGY.

OUTCOMES:

- Students gained knowledge about the properties of cotton.
- Gained information from the cultivation and processing of cotton fibre.
- Gained About processing of the natural resource is used to convert it into a textile which is known for its versatility and its performance.

REPORT

JAMAL INSTITUTE OF MANAGEMENT JAMAL MOHAMED COLLEGE (AUTONOMOUS) TIRUCHIRAPPALLI

The Report of Business Sector Lecture Series - XII (26/10/2021)

Jamal Institute of Management organized on the topic of CYBER CRIME AND SAFETY AWARENESS on 26th October, 2021. Cybercrime is on the rise, and it has become a major concern. Cybercrime, like the world of digital technology, is always progressing. The COVID-19 pandemic renders individuals and society extremely vulnerable in all respects. During this crisis, we all rely more than ever on computer systems, mobile devices and the Internet to work, communicate, shop, share and receive information. There is a need to make awareness about the scourge of cybercrime, particularly among the youth, who are the tech-savvy and use the technology more. Cybercrime has arisen as a serious global concern, and raising awareness is essential among the general public, particularly among the youth. Keeping this in mind, this lecture was organized and aims to educate students on the cyber threats faced.

More people are being attacked by cybercriminals as a means to earn more money. These are today's criminals who are constantly looking for ways to break into systems by exploiting human error and system vulnerabilities. Guest speakers talk about how people around the world are being attacked, including various types of cybercrime, online fraud and identity theft scams on online platforms, and leaking personal information through social media platforms etc.

He also shared several cybercrime cases from his personal experience. Moreover he talked about more common cybercrimes such as phishing, hacking, data theft, identity theft, Malware, computer viruses, data breach, and cyber stalking and then informed us about ways to keep ourselves safe from such crimes and ways to approach the Cybercrime units if ever such a situation arises.

He elaborated about the most common frauds that are faced by the youth for instance Job frauds, ATM frauds, identity theft via social media and also harassment faced due to catfishing on social media. He then informed the participants on how to identify such kind of frauds and how to keep ourselves safe in today's virtual age. The most popular social media sites like Facebook, Twitter, Instagram.

Criterion V Student Support and Progression

5.1. Student Support

5.1.3. Following Capacity development and skills enhancement activities are organised for improving students capability 1. Soft skills, 2. Language and communication skills, 3. Life skills (Yoga, physical fitness, health and hygiene), 4. Awareness of trends in technology

He emphasised that youth should be careful of who they are communicating with online and refrain from as long as any type of personal information to persons they do not identify and trust. He expressed his concern as young people have no nervousness having complex details of their life on Twitter, Facebook, Whatsapp, Instagram and Snapchat. They likely to make silly or mean comments on other people's websites. Often they join fake clubs and forums online, chat with the strangers, share pictures of themselves, and risk their personal information by entering their private details on their mobiles, tabs, laptops and other devices. They become easy targets for Cyber Criminals, they also put their families and loved ones at risk.

Though not all people are victims to Cyber Crimes, they are still at risk. Crimes by computer vary, and they don't always occur behind the computer, but they initiated by computer. The hacker's identity is ranged between 12 years young to 67 years old. The hacker could live three or four continents away from its victim, and they wouldn't even know they were being hacked. Crimes done behind the computer are the 21st century's problems. With the technology increasing, criminals don't have to rob banks, nor do they have to be outside in order to commit any crime. They have everything they need on their lap. Their weapons aren't guns anymore; they attack with mouse cursors and passwords. So he advised that individuals should avoid disclosing any information pertaining to them, always avoid sending any picture online especially to strangers and chat friends as there have been incidents of misuse of pictures. Always use current and updated anti-virus software to guard against virus attacks. Always save back up volumes so that one may not suffer data loss in case of virus corruption. Never ever send your credit card or ATM Card numbers to any site or to any stranger, this is not secured to guard against frauds. He further warned to lookout on the sites our children are accessing to avoid any kind of harassment in children. It is much better to use a security programme that gives control over the cookies and send all the information back to the site as leaving the cookies unguarded might prove lethal.

The seminar was attended by over 80 students from MBA department. The talk generated lot of curiosity among the students. Students asked many questions at the end of the talk. On completion of the question & answers session DR.A.S. Thirufag Nishith thanked the Guest speakers for sparing his valuable time and imparting valuable knowledge on such an important topic. The session was well appreciated by the audience.

Physics Association Activities 2021-2022

Title: Understanding Physics

06.10.2021

Dr. M.Jamal Mohamed Jaffer, Head of the Department of Physics welcomed the gathering and introduced the chief guest of the session. The Special Lecture was delivered by Dr. S. Manivannan, Associate Professor of Physics, National Institute of Technology, Tiruchirappalli. He highlighted the applications of Physics in our daily life. The Vice president of Physics Association Dr.N. Faez Mohamed Sethik proposed a vote of thanks. The special lecture was conducted online via Google meet with around 28 participants.

Report

Under the aegis of DBT Star College Scheme, to commemorate National Mathematics Day, a Special Lecture Programme was organized by PG and Research Department of Mathematics on 22.12.2021. Prof. M. Lakshmanan gave lecture on 'Nonlinear Differential Equations' between 2.00 pm to 4.45 pm. Earlier Dr. P. Marudamuthan, Assistant Professor in Mathematics welcomed the Resource person. Finally, Mr. N. Mohamed Thoyah, Assistant Professor in Mathematics proposed vote of thanks. 53 students from II B.Sc. Mathematics participated and they were highly benefitted out of this online programme.

Outcome

Students will

- Be able to identify natural phenomena that have non-linear differential equations.
- Be able to analyze the stability and behavior of nonlinear dynamic systems based on appropriate methods.
- Be able to identify the occurrence of bifurcation in non-linear PD systems.
- Be able to work together in analyzing non-linear PD systems and presenting them in written and oral form well.

Outcome

Students gained knowledge on various applications of linear differential equations and will be able to

- recognise differential equations that can be solved by each of the three methods – direct integration, separation of variables and integrating factor method – and use the appropriate method to solve them
- use an initial condition to find a particular solution of a differential equation, given a general solution
- check a solution of a differential equation in explicit or implicit form, by substituting it into the differential equation

REPORT

REPORT OF THE PROGRAM

A Special lecture program of the mathematics association of SP women was conducted on 10th December 2021 for II M.Sc mathematics Students. Nearly 55 students attended the session.

The program was started with Quirt. Ms. O.M. Rakana Fathima of I M.Sc II welcome the gathering and Coordinator Dr. S. Mohamed Isayil introduced the chief guest. Our chief Guest Dr. B. Mohamed Harif, Assistant Professor of Mathematics in Raja Serfoji Government College, Tirujavar. Delivered the Special Lecture on "Algebra and its applications", which was very useful and informative for students. He starts his lecture by saying the pattern of the SET, NET JRF, NBHM exams and shared his view and his experience about these exams. The tricks and easy methodology to learn and fast solving the problems within time. And he solved previous years questions and our students actively took part in solving the answers. The program ended with vote of thanks done by Ms A Faizia Begum of I M.Sc.A Mathematics

Outcome

- Familiarize with relations, equivalence relations and partitions
- Work within various algebraic structures
- Understand the importance of algebraic properties with regard to working within various number systems.
- Recognize consistent and inconsistent systems of linear equations by the row echelon form of the augmented matrix, using rank.
- Compute rank of matrix, solution of system of L.E. and find kernel of homomorphism. Find eigenvalues and corresponding eigenvectors for a square matrix.
- Think critically by interpreting theorems and apply relating results to problems in other mathematical disciplines

REPORT

PG & RESEARCH DEPARTMENT OF COMPUTER SCIENCE JAMAL MOHAMED COLLEGE (Autonomous) TIRUCHIRAPPALLI - 620 020

REPORT ON SPECIAL LECTURE ON SOFTWARE TESTING IN WEB APPLICATIONS

A Special lecture on Software Testing in Web Application was conducted on the Monday, 22nd November 2021, at 11.00 am through Online MS-TEAMS.

Mr. M. Khalid Ahmed of II M.C.A rectified Qnath. Dr. G. Ravi, Head & Associate Professor, Department of Computer Science welcomed the gathering. Dr. D. I. George Arulanandham, Associate Professor & Director - MCA facilitated the gathering. Dr. S. Mohamed Ilyas, Assistant Professor of Computer Science introduced the chief guest Mr. J. Praveen Edward Michael.

Mr. J. Praveen Edward Michael, Senior Software Engineer, Hesseware Technologies, Chennai an illustrious alumnus, delivered a special lecture on 'Software Testing in Web Application'. He introduced the concept of Software Testing and its importance. He interacted with the students of UG & PG. He initiated the benefits of software testing, testing in software engineering applied in SDLC and testing strategies in software engineering. He also demonstrated the sample automation program execution through online. The students of III MCA, II MCA and III B.Sc (CS) were benefitted lot from this online special lecture.

Mr. J. Parvez Ahmed of I MCA proposed a vote of thanks. One Hundred and Twenty-Eight students of UG & PG were benefitted. Dr. O.A. Mohamed Jafar and all other staff members graced the occasion.

Dr. G. RAVI, MCA, M.Phil, PGDCA, Ph.D.,

Outcome

Students will be able to

- Describe the relation between roots and coefficients
- Find the sum of the power of the roots of an equation using Newton's Method.
- Transform the equation through roots multiplied by a given number, increase the roots, decrease the roots, removal of terms
- Solve the reciprocal equations.
- Analyse the location and describe the nature of the roots of an equation.

Outcome:

Upon successful completion of this programme, students will:

- Solve tangent and area problems using the concepts of limits, derivatives, and integrals.
- Draw graphs of algebraic and transcendental functions considering limits, continuity, and differentiability at a point.
- Determine whether a function is continuous and/or differentiable at a point using limits.
- Use differentiation rules to differentiate algebraic and transcendental functions.
- Identify appropriate calculus concepts and techniques to provide mathematical models of real-world situations and determine solutions to applied problems.
- Evaluate definite integrals using the Fundamental Theorem of Calculus.
- Demonstrate an understanding of the relationship between derivatives and integrals using the Fundamental Theorem of Calculus.
