Career Counselling Professional Courses Program Outcomes

- The Career counselling program helped us to get to know about opportunities available for Commerce Students to upgrade their level in CA, CFA, ACCA, CIMA, IRA, CISA, CPA and their scopes.
- The professionals who are heading their good using those career motivated us to study the Commerce professional courses by pointing the advantages in it. They also quoted "Taking up a professional course is important to improve your performance in a given career. In order to acquire more advanced and better skills, many people today go for these professional courses."
- They also gave us confidence along with basic information. I was too impressed to get to know about the scopes and Merits In CA. I get to know that The role of Chartered Accountant is rewarding, challenging and dynamic. Generally, most of the countries have their own Accountancy Association controlling the quantity and quality of the professionals regarding the field. Chartered Accountant Course is beneficial for gaining knowledge of Accounting in our country and is introduced in 1949 along with the Chartered Accountants Act. And in the same year, the Institute of Chartered Accountants of India (ICAI) was also established. A Chartered accountant is a person who is an expert in related fields like auditing, accounting, and taxation. He is responsible for a corporate and management caretaker. Currently, accountancy has gained so much of surge in popularity. The services provided by a CA is essential in money related matters concerning even small business as well.

A Check Point Discussion Programs Outcomes

- Check point discussion- in this programme i have learnt the components of women's five empowerment they are: women's sense of all worth; think right to have and to determine choices; their rights to have access to opportunities and resources; their rights to have power to control their own lives; both within and outside the home and their ability to influence the direction of social societies. This all points empowered me too. I too learnt about the importance of women empowerment i.e. Empowering women is essential to the health and social development of families, communities and countries. When women are living safe, fulfilled and productive lives, they can reach their full potential. contributing their skills to the workforce and can raise happier and healthier children.
- It also brighten my mind by preaching the benefits of effective communication it create better relationships, because relationship build on the solid ground of good communication tend to be stronger and even can help to find the opportunities of our personal growth. They also said what does good communication means, Communication is primarily about word choice. And when it comes to word choice, less is more. The key to powerful and persuasive communication—whether written or spoken—is clarity and, when possible, brevity. Before engaging in any form of communication, define your goals and your audience.
- This programme was very useful for me to get know how to manage my time and what would be the outcomes if i follow the time correctly and greater confidence too. They also gave 5 hints about time. They are i came to know it would include great clarity, greater capability i.e. set reminders for all your tasks, create a daily planner, give each task time limit, block out distractions, establish routine
