Theme of the Seminar: "HADITH AND MODERN SCIENCE"
The Sunnah of the Prophet Muhammad (may Allah bless him and grant him peace) is the second of the two revealed fundamental sources of Islam, after the Glorious Qur'an. The authentic Sunnah is contained within the vast body of Hadith literature.

The Hadith literature was collected and compiled by many famous scholars, such as Imam Al-Bukhari, Imam Muslim etc. and by the grace of Allah all activities related with the Holy Prophet (PBUH) are available in the Books of Hadith. So we are lucky enough to study, understand and even do research in the tradition of the Holy Prophet (PBUH). Since Hadith is the words of the Prophet (PBUH) who did not act but according to the guidance of Allah, it contains various valuable knowledges and sciences.

All the principles of Hadith will exist holding the best as long as the world exists. The Purpose of the Seminar is to bring out the scientific truths available in the Hadith Literature, to enlighten the students of literature and to help them to be benefited from the same.

The main themes of the Seminar
- Hadith and Medicine
- Hadith and Environmental Science
- Hadith and Astronomy
- Hadith and Social Sciences
- Hadith and Other Fields of Science
